GatsbyJS

A static site ?

Static site ?

A static site is a site
with **no backend**

Static site ?

A blog

A documentation web site

Your company's public website

When not using a static site ?

Content that requires **authentication**

Completely dynamic content

Static site ?

A static site is often
simpler to build

Static site ?

A static site is **fast**
and **scales well** !

Static site ?

It's easier to secure

Static site ?

But my site is
dynamic !

Static site ?

Is everything
dynamic ?

Static site ?

Capture **dynamic**
content when
generating the site

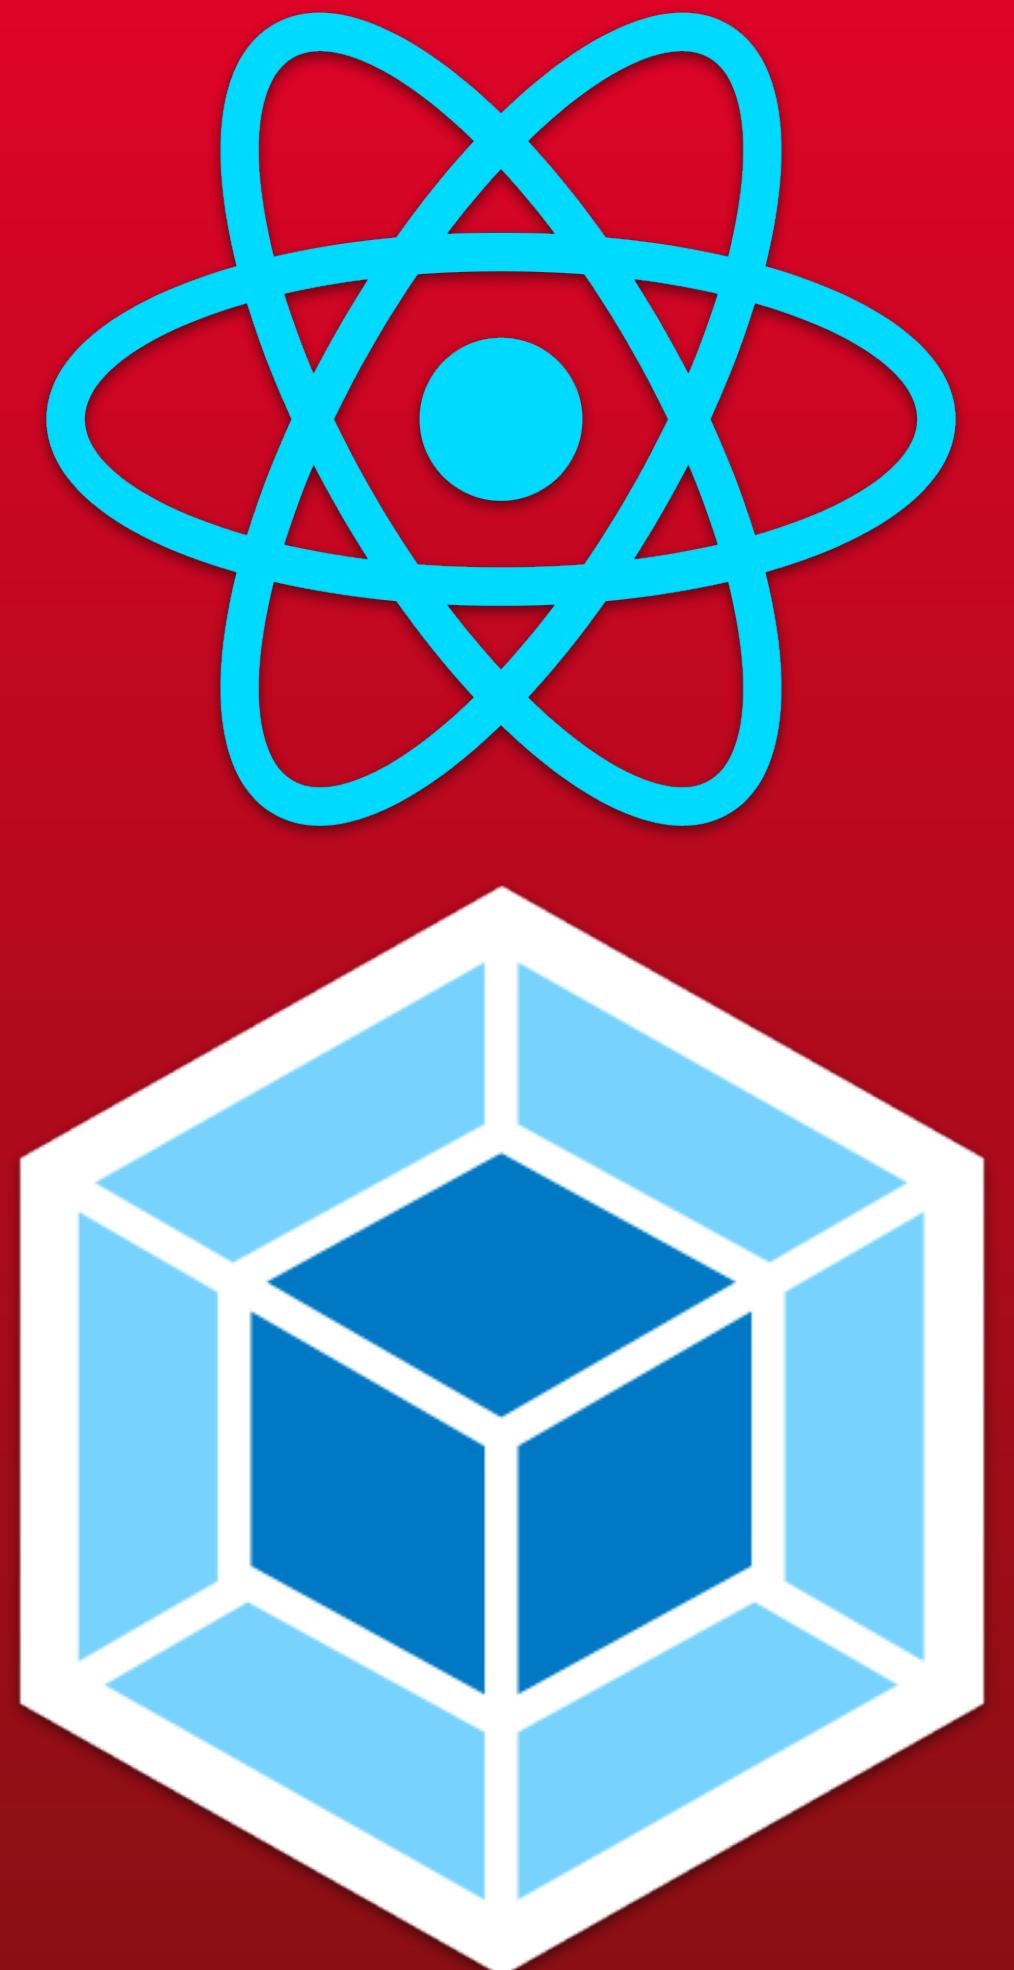

Static site ?

Update content by
deploying
continuously

Static site ?

Make some
dynamic parts in
your static site

GatsbyJS

Based on ReactJS,
Webpack & GraphQL

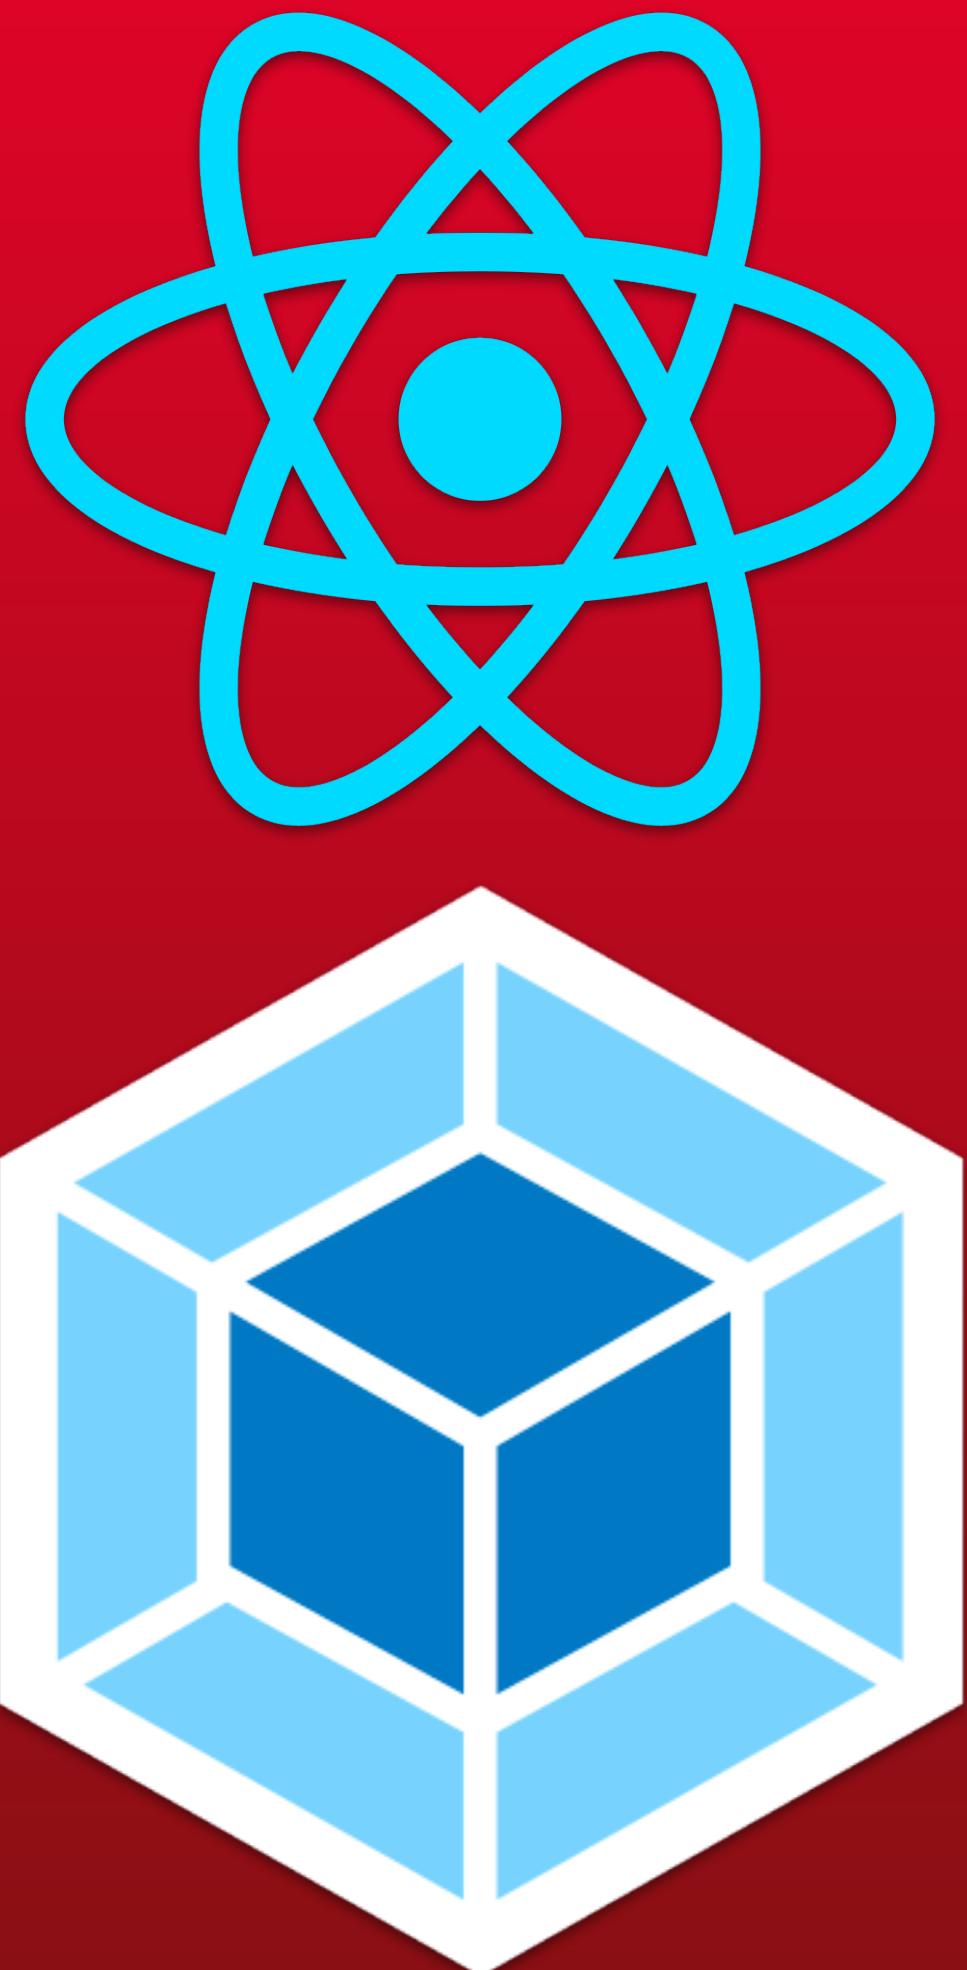

Modern JavaScript and
CSS

GraphQL

A query language for APIs

*“gives clients the power to ask
for exactly what they need and
nothing more”*

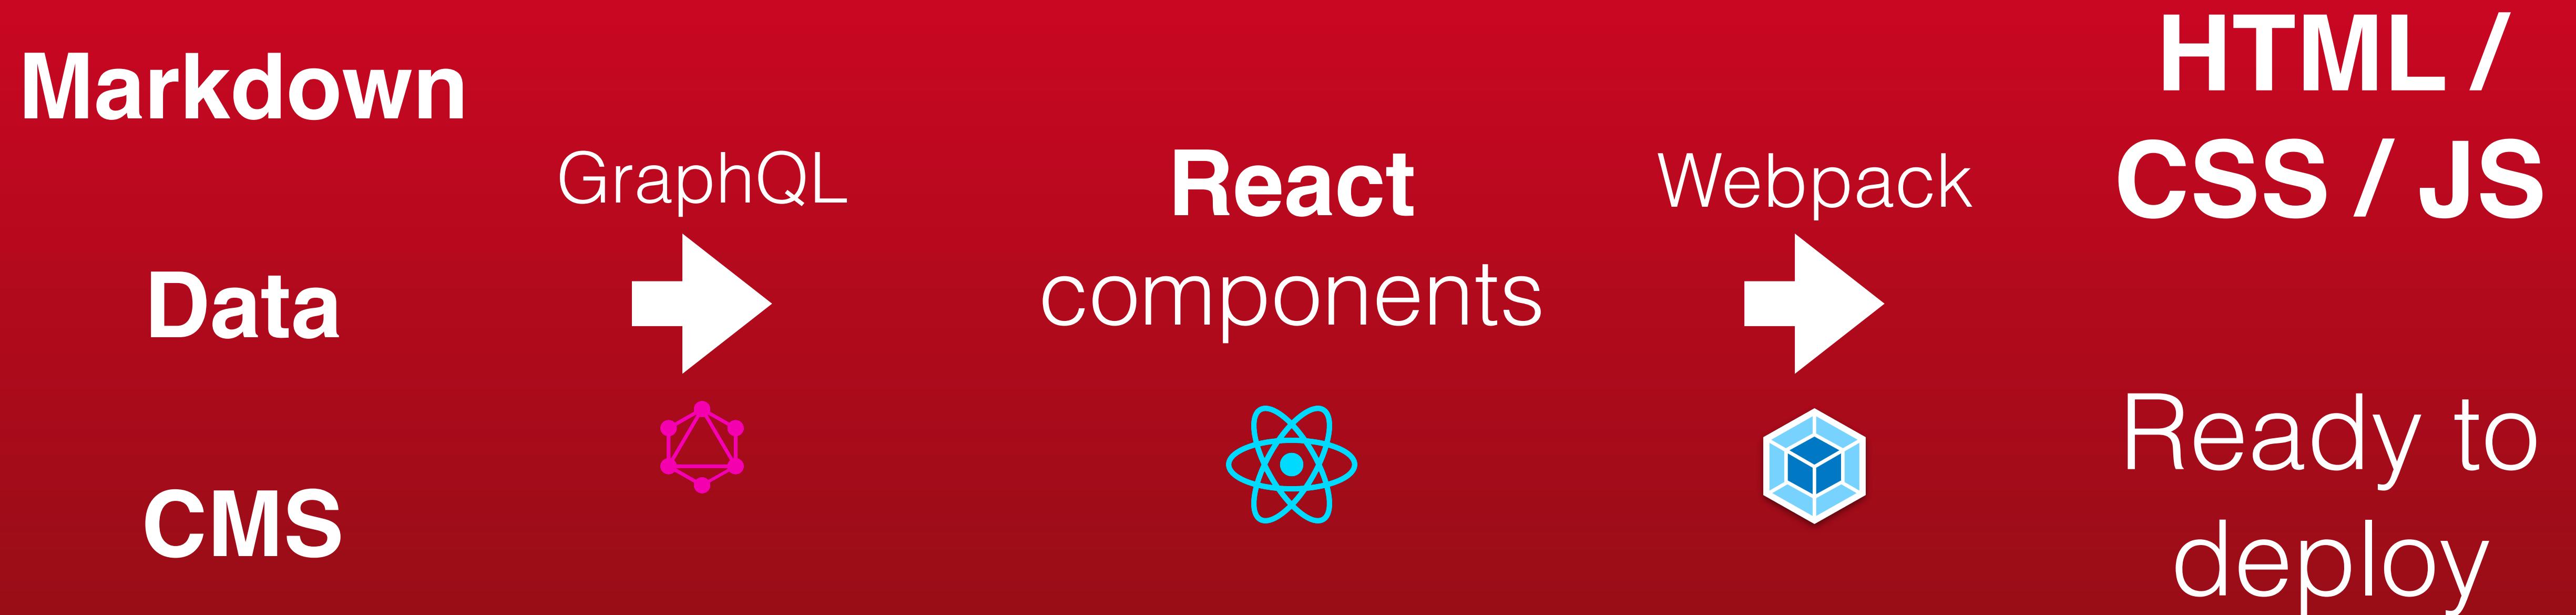

GatsbyJS

Based on ReactJS,
Webpack & GraphQL

Modern JavaScript and
CSS

How Gatsby build web sites ?

Compared to others ?

Jekyll
Metalsmith
Asciidoctor
Hugo

...

Gatsby proposes

A “blazing fast” **user experience**
(server-side rendering, code splitting)

A **data-driven approach**
(GraphQL)

A comfortable **developer experience**
(ReactJS, Webpack)

Who is using Gatsby ?

reactjs.org
segment.com/blog
meetfabric.com
You ?
